MONTEZUMA RIMROCK WATER COMPANY,
LLC FOR APPROVAL OF A FINANCING
APPLICATION.

DOCKET NO. W-04254A-08-0362

DECISION NO. 74382

ORDER

Open Meeting
March 19, 2014
Phoenix, Arizona

BY THE COMMISSION:

FINDINGS OF FACT

1. Montezuma Rimrock Water Company, LLC ("Montezuma" or "Company") is an Arizona public service corporation authorized to provide water service in a community near Rimrock, Az. Montezuma has approximately 205 water customers.

2. On May 31, 2012, the Company filed an application with the Arizona Corporation Commission ("Commission" or "ACC") to increase its rates for water service. The Company also filed three financing applications. The Company subsequently filed several amendments to its rate application, and on April 12, 2013, the Company amended its financing applications.

3. In Utilities Division Staff's ("Staff") review of the rate application, Staff concluded that Montezuma is not recovering sufficient amounts in rates to cover expenses and support lease payments on the arsenic treatment facility and associated building. Based on a regulatory audit of the Company's finances, Staff recommended an increase in base rates as well as two surcharges for certain planned indebtedness.

4. Hearings on the base rate application and on other consolidated dockets were held on June 20-21 and June 24-26, 2013. Final briefs were submitted on September 20, 2013. A Recommended Opinion and Order has not yet been issued.

1 5. The underlying proceeding in the base rate case and consolidated dockets is a complex
2 matter that includes an application for a base rate increase, four financing applications, a complaint,
3 and a reopened rate case.

4 6. The Company originally requested a rate increase of 42.85 percent above test year
5 revenues as well as various surcharges. Staff recommends a 27.59 percent increase above test year
6 revenues as well as two surcharges. Staff's recommendation provides for the payment on the arsenic
7 facility leases in base rates. Montezuma subsequently accepted the Staff recommendation. John
8 Dougherty, an intervenor in the rate case and a complainant in the complaint matter, opposes any rate
9 increase generally and opposes granting any approvals relating to the leases on the arsenic treatment
10 facilities.

11 7. The Company's arsenic treatment facilities are currently in operation. On December
12 27, 2013, the Company filed a compliance report indicating that the Company had filed more than
13 one year of arsenic level data and that Montezuma is now in compliance with Arizona Department of
14 Environmental Quality's ("ADEQ") administrative order relating to arsenic.

15 8. On March 7, 2014, Montezuma filed a request for emergency/interim rate relief. In its
16 filing, the Company states that it does not have sufficient revenue to make the lease payments on its
17 Arsenic Treatment Facility to the leasing company, Financial Pacific Leasing. On March 13, 2014,
18 the Company docketed a copy of a demand letter from Financial Pacific which stated that an
19 immediate payment of \$2,824.80 is required in order to prevent acceleration of the lease and a
20 demand of payment in full in the amount of \$47,781.92. The Company's filing also indicates that
21 Financial Pacific Leasing has contacted the Company and requested voluntary surrender of the
22 Arsenic Treatment Facility for non-payment.

23 9. On March 11, 2014, Mr. Dougherty filed a response to the Company's application for
24 interim rate relief. Mr. Dougherty's response referred to the three criteria discussed by Attorney
25 General Opinion No. 71-17. Mr. Dougherty does not believe (1) that a sudden change has occurred
26 bringing on financial hardship, (2) that the Company has provided evidence demonstrating its
27 insolvency, and (3) that the Company's ability to maintain adequate service is in doubt. In
28

1 conclusion, Mr. Dougherty asks the Commission to install an interim manager based on the
2 contention that interim management could access certain grant funds to finance arsenic treatment for
3 Montezuma.

4 10. Based upon concerns regarding the possible threat to public health and safety
5 presented by the potential loss of arsenic treatment, Staff contacted Financial Pacific to confirm the
6 status of the leasing company's plans regarding the non-payment. Staff spoke with representatives of
7 Financial Pacific. Based upon those discussions, Staff confirmed that Financial Pacific intends to
8 repossess the arsenic treatment facilities in the event that the Company continues nonpayment on the
9 lease.

10 11. Staff discussed with Financial Pacific the pendency of the base rate application and the
11 recommendations that had been made. Likewise, Staff discussed the possibility of interim rates
12 sufficient to permit Montezuma to bring its account current. Financial Pacific indicated that, if rates
13 were put in place (on an interim basis and followed with permanent rate relief), and if Montezuma's
14 account were made current, it would not pursue remedies unless Montezuma again falls into
15 delinquency.

16 12. Staff further inquired as to the lease for the building that houses the arsenic treatment
17 facility. The Company leases the building from Nile River Leasing, L.L.C. On March 13, 2014, the
18 Company provided a statement to Staff indicating that it has an overdue balance of \$2,515.34 as of
19 March 13, 2014.

20 13. Total indebtedness to both leasing companies is \$5,340.14.

21 14. If Financial Pacific were to pursue repossession or other similar remedies, it is
22 possible that such measures could be concluded relatively quickly.

23 15. Witnesses at the hearing in the base rate application and consolidated dockets stated
24 that the financial condition of Montezuma has effectively precluded essentially all other alternative
25 avenues of financing arsenic treatment at this point.

26 16. Staff notes that the Company was already authorized to pursue Water Infrastructure
27 Finance Authority of Arizona ("WIFA") financing to fund construction of arsenic treatment. Staff
28

1 has reviewed the feasibility of financing from WIFA and concluded that, owing to the additional
2 costs of having to meet National Environmental Policy Act compliance, the cost of WIFA financing
3 is prohibitively expensive to both the Company and its ratepayers.

4 17. Additionally, witnesses at hearing testified that the Company does not currently have
5 sufficient cash flows to obtain a standard loan.

6 18. The current state of ADEQ compliance for the Company is contingent upon providing
7 continuous arsenic treatment of its drinking water supplies. According to witness testimony,
8 Montezuma has narrowly avoided penalties by ADEQ for the lengthy period it took to implement
9 arsenic treatment. The Company may face ADEQ compliance issues if its arsenic treatment
10 equipment were abruptly removed at this point. Such compliance issues could further exacerbate the
11 financial distress confronting the Company.

12 19. Financial Pacific is apparently poised to pursue various measures against Montezuma
13 for nonpayment on the arsenic treatment facility lease. Such measures may occur very quickly,
14 providing little time for response.

15 20. The substantial financial consequences to the Company and, more importantly, the
16 threat to quality of service to ratepayers justify emergency/interim rate relief.

17 21. Rates collected pursuant to an emergency surcharge are subject to true-up once
18 permanent rates are approved in Montezuma's application for a base rate increase. Amounts
19 collected beyond what are approved in the base rate case would be subject to refund.

20 22. Staff does not believe that the appointment of an interim manager would be
21 appropriate at this time. With regard to the potential to access WIFA grant funds, it is Staff's
22 understanding that the grant funds have been depleted for a number of years.

23 23. Staff recommends approval of an emergency surcharge in the amount of \$10 per
24 customer per month which would provide additional revenues of approximately \$2,000 per month.
25 Staff further recommends that the surcharge should take immediate effect and that the Company
26 should be authorized to do a special billing to accelerate collection of the surcharge. Staff
27 recommends that the Company should be required to post a bond in the amount of \$10.00.
28

1 24. Further, Staff recommends that the Company be ordered to apply the funds collected
2 under the surcharge solely to payment of the arsenic treatment facility and the associated building
3 leases.

4 **CONCLUSIONS OF LAW**

5 1. The Commission has jurisdiction over Montezuma Rimrock Water Company and over
6 the subject matter herein pursuant to Article XV, section 3 of the Arizona Constitution.

7 2. Appropriate notice of the proceeding and an appropriate opportunity to be heard have
8 been given in the manner prescribed by law.

9 3. The threat of repossession of essential arsenic treatment facilities in the event of
10 nonpayment of amounts owed on the lease for the arsenic treatment facilities constitutes a sudden
11 change or hardship for Montezuma.

12 4. The demand for payment on past due amounts owed on the lease for arsenic treatment
13 and the threat of repossession of the arsenic treatment facilities jeopardize Montezuma's ability to
14 provide arsenic free drinking water to its ratepayers.

15 5. The facts and circumstances demonstrate that Montezuma faces an emergency
16 situation that justifies emergency/interim rate relief.

17 6. Staff's recommendations herein are reasonable and should be adopted.

18 7. The Commission, having reviewed the Company's request and the responsive filings
19 made by Intervenor Dougherty and Staff, finds that it is in the public interest to permit an interim
20 emergency surcharge to preserve the quality of service to ratepayers and to maintain the status quo
21 during the pendency of the application for a base rate increase.

22
23 **ORDER**

24 IT IS THEREFORE ORDERED that Montezuma Rimrock Water Company may implement
25 an emergency surcharge of \$10 per month per customer.
26
27
28

1 IT IS FURTHER ORDERED that the emergency surcharge will terminate upon the effective
2 date that rates approved in Montezuma Rimrock Water Company's application for a base rate
3 increase may be charged.

4 IT IS FURTHER ORDERED that Montezuma Rimrock Water Company may utilize funds
5 collected pursuant to the interim emergency surcharge only toward payment of its arsenic treatment
6 facility and associated building leases.

7 IT IS FURTHER ORDERED that Montezuma Rimrock Water Company is authorized to
8 undertake a special billing to initiate the surcharge immediately upon the effective date of this
9 Decision.

10 IT IS FURTHER ORDERED that rates collected pursuant to the emergency surcharge are
11 subject to true-up once rates are approved in Montezuma Rimrock Water Company's application for
12 a base rate increase. Amounts collected beyond what are approved in the permanent base rate case
13 are subject to refund.

14 IT IS FURTHER ORDERED that Montezuma Rimrock Water Company shall mail notice of
15 the approved interim emergency surcharge to its customers, in a form and manner acceptable to Staff,
16 to accompany the special billing set forth in Finding of Fact No. 21.

17 IT IS FURTHER ORDERED that Montezuma Rimrock Water Company shall obtain a
18 performance bond, or other comparable financial instrument in the amount of \$10, and shall provide
19 the original to the Commission's Business Office for safekeeping and file copies with Docket Control
20 as a compliance item in this docket prior to charging the interim surcharge.

21 IT IS FURTHER ORDERED that Montezuma Rimrock Water Company is put on notice that
22 the emergency surcharge put into effect by this order is interim and solely intended to maintain the
23 status quo during the pendency of the permanent base rate application. The Commission's approval
24 of interim rates does not prevent the Commission from approving base rates in the permanent rate
25 case that may preclude full recovery of amounts related to any lease entered into by Montezuma
26 Rimrock Water Company.

27 IT IS FURTHER ORDERED that this decision shall become effective immediately.
28
